INTRODUCING GERAI DIGITAL

Your own online store, live today.

Sell in Malaysia with local payments, courier shipping and your own web address. Free to start.

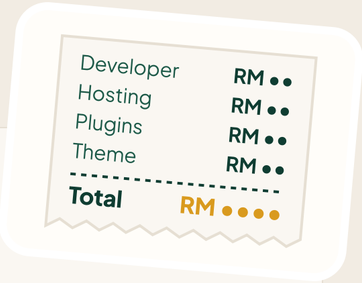

THE PROBLEM

Selling online usually means picking the lesser evil.

Marketplaces

Easy to set up, with customers built in, but they keep the relationship and the data, and their fees eat into your profit.

Your own website

Fully yours, but it costs a lot: weeks of work, a developer, hosting and plugins, all before your first sale.

Gerai Digital

Your own store in minutes. Your customers, your data and 0% commission.

THE HIDDEN COST

Some platforms quietly eat into your profit.

Commission

A cut of every order, taken before the money reaches you.

Extra transaction fees

A platform fee per sale, on top of your gateway's fee.

High monthly fees

Expensive plans to pay before you've made a single sale.

This month	EXAMPLE FIGURES
Sales	RM 10,000
Commission (10%)	– RM 1,000
Transaction fees (2%)	– RM 200
Promotion fee (3%)	– RM 300
Affiliate commission	– RM 250
System support (1%)	– RM 100
Return shipping	– RM 120
Monthly plan	– RM 150
You keep	**RM 7,880**

That's RM 2,120 gone, every month.

Ouch. That's money you worked hard for. :(

SOUND FAMILIAR?

Stop juggling between platforms.

10 apps, 10 logins, 10 bills, just to run one business.
